FACTIONAL FIGHTS!

Assistant Postmaster General Clarkson Will Ignore Them in Dealing Out the Fourth-Class Postmasterships.

WASHINGTON, May 20.—In the distribution of fourth-class postoffices, First Assistant Postmaster General Clarkson states that he does not propose to recognize one faction in the various states to the disadvantage of the other. He says he does not believe in encouraging factional fights within the party lines, and so far as he is able, he proposes to deal out the fourth-class postmasterships to republicans without regard to their local differences.

In speaking on this subject to-day he said that so far as he had been informed the administration has set down no fixed policy with regard to the policy in the southern states, and the claims made by certain factions that they are to control all appointments made in their respective states are without authority.

Much consternation prevails among the messengers, watchmen, laborers, and other department employes not under the protection of the civil service law, on account of the persistent demands of the place hunters.

The names of the persons appointed as the board of visitors to the military academy were announced to-day. Among them are: Hon. S. S. Yoder, Lima, O., and Hon. G. W. Shute, Marion, Ind., and General Lew Wallace, Crawfordsville, Ind.

The following appointments were made by the president to-day:

To be Receivers of Public Moneys—Thos. D. Baumgarner, of Arkansas, at Dardaville, Ark.; Henry C. Pickles, of Delaware, at Folsom, N. M.; Frank Lesnet, of New Mexico, at Roswell, N. M.

To be Registers of Land Offices—Wm. P. Alexander, of Colorada, at Del Norte, Col.; John H. Mills, of New Mexico, at Roswell, N. M.

To be Indian Agents—James Blythe, of North Carolina, at the eastern Cherokee agency, N. C.; John Fosher, of Wyoming Territory, at the Shoshone agency, W. T.

Mrs. Eaton, the doctor's wife, and a near relative of Miss Davenport acted as the witnesses required by law. Miss Davenport arrived here from Philadelphia yesterday where she closed a successful dramatic season last week. When the the nuptial knot was tied the couple were driven to the St. Clond hotel where they are stopping.

POLICE COURT.

Sunday is Clear of Arrests, but Saturday Contributes Its Share.

A Sabbath without an arrest is indeed a rarity, but yesterday was so recorded in the annals of the city, this morning.

Saturday sent in its usual quota, however, and six arrests were recorded.

Mayor Harding, in keeping with his refusal to let police officers take bail, appeared at police court yesterday to give relief to the prisoners, if any desired trial or release in the proper way.

Accordingly Oscar Logan, a plain drunk was arraigned. He said guilty, had no money and was committed to jail to work out $10.50.

Sam Smith who was arrested with a woman over Geistdorfer's saloon, put in a similar plea. His bill was $14.50.

The woman in the case had a little babe in her arms and Officer Humbrecht did not arrest her.

Thus concluded the Sabbath morning court and three cases went over until to-day.

Harry Gardner went to the old Golicke saloon and after some drinks rudely accosted Mrs. Merz, whose husband is now under indictment for promiscous shooting.

The woman called for police protection, and Gardner was locked up. He was given a hearing to-day, and the mayor assessed a fine and costs of $10.50 for simple assault, the first accusation having been modified.

John Toomey and Frank Travis were arraigned for drunkenness and the usual amount, $10.50, was chalked against them.

SCANDAL AND SHOT.

Sam Druley Invades the Sanctity of a Home and Pays the Penalty.

Dave Burnie, is a freight brakeman on the Pittsburg, Fort Wayne and Chicago road, and lives with his wife and two children in a cottage home on Oliver street.

Friday night he went to Chicago on his run, and on schedule time he would be back here last night. There was a special stock train ordered east from Chicago, Saturday, and Burnie, with others of the crew, were "doubled back" as the expression goes, and he arrived in the city yesterday morning.

Proceeding to his home about 4:30, he entered by the aid of a night key and loitered some moments about the house, looking in at his children and then he stepped to his wife's apartments.

As soon as he approached the door a man clutched him about the waist and a fierce struggle followed.

Burnie, who always carries a gun, succeeded in getting the weapon out of his pocket, but so tightly was he held in the vice-like grip of the intruder, Sam Druley, that he could not raise his hand to kill him.

Pulling his right hand up as high as he could he sent a bullet into Druley's left hip joint. The fellow yelled murder and fled through the door.

Burnie leveled his pistol at the fleeing form to shoot a second time, but his wife threw his arm up and saved a life.

It did not take long to locate Sam Druley as the victim of the shooting, for he had to have medical aid. The bullet passed about his limb and opened a dangerous gap, from which blood rolled in a stream.

Burnie walked down to the police station and was locked up. This morning he waived examination and was held in the sum of $3,000 to await a trial.

It is, of course, surmised that Durley was Mrs. Burnie's lover and in his society she sought to pass the hour's of her husband's absence, for something of the kind separated her from her husband a year or so ago.

Burnie pleads self-defense. He says he did not know but that Durley was a thief, and at any rate, he is not very sorry for his work.

Durley drives a romantic coal wagon when not disabled, and Dr. H. S. Myers, his attendant, says he will get well.

NEW YORK, May 20.—The third day's session of the Presbyterian General Assembly was opened this morning with prayer by Moderator Roberts and after a short session, Dr. Crosby moved that the assembly adjourn until the afternoon, for the purpose of visiting the Union Theological Seminary.

PURITAN PRACTICES.

A Sunday of Peace and Quiet in Fort Wayne—Milkmen, Ice Dealers, Butchers and Druggists Arrested for Sabbath Violations.

Such a Sunday as yesterday will not find a parallel in the history of Fort Wayne.

There are 174 saloons in the jurisdiction of this city and every one of them were closed from 11 o'clock Saturday night until 6 o'clock this morning.

Captain Diehl handed to each of his men on the night force a list of saloons in their territory, with instructions to see them locked at 11 o'clock and they did so, placing the chief on record in thorough sympathy with the movement.

Marshal Franke had things different and is criticised in some quarters. He insists that his orders were to close saloons, drug stores, cigar shops, confectioneries, meat markets, bakeries and every forbidden business yesterday.

It was a question whether he was following the dictates of the mayor or the Liquor Dealers' association and to settle the point THE SENTINEL representative sought the mayor.

"What were your orders to the marshal?" was put to his honor.

"Well, sir, I will tell you. Fearing I would be misconstrued I asked Hon. W. H. Shambaugh, a representative in the legislature, to be present during my interview with Marshal Franke. I prefer you would go to Mr. Shambaugh. He will give you my words exactly and from an independent standpoint."

"Are you pleased with the Sabbath observance?"

"Very much so," said the mayor. "It was perfect and I feel it will be pleasing to all good people."

A TALK WITH MR. SHAMBAUGH.

The young attorney and legislator was encountered in the court house.

"You were present when the mayor instructed the marshal Saturday. Will you repeat his words?" ventured the newspaper man.

"Mr. Harding instructed the marshal," said Mr. Shambaugh, "to notify all saloon keepers to close their houses Saturday night, at 11 o'clock, and remain closed until Monday morning. These orders were plain and imperative. He then said to the marshal in substance. 'I wish you would also say to druggists, cigar dealers, and others, accustomed to do business on Sunday, that in view of the threatened prosecution of the liquor dealers, who are trying to make the Sunday law obnoxious and odious, that, for self protection, they had better close up.' The mayor only meant to do them a favor, for he knew the plans of the saloon men. This is the position of the mayor."

THE SUNDAY AS SEEN.

Sunday was not quiet, but it was decent. There were the customary number of people on the streets, everybody who could went out driving, others patronized the street cars, others fished all day, others went to church, Sunday school and prayer services and hundreds visited the parks, the cemeteries and went out to view the haunts of nature.

There was not a person who did not feel better after a day so well spent and such were the comments on every hand.

In the face of the fact that a great many people laid in a supply of wet goods Saturday night, there was not a sign of drunkenness on the streets, there were no crowds loafing out late at night and no disorder.

The signs of druggists, "No Soda or Cigars," "Closed by Order of the Marshall," and such signals created considerable amusement.

Saloon men had dummy policemen in their front doors, holding the mayor's proclamation and one cop sported the legend: "You'll never miss your drink until the saloons go dry."

The breweries, beer gardens and picnic places were all closed and the saloon men drove out with their families and sweet-hearts to see the city in all its magnificence.

SALOON MEN SHOWING A HAND

The Liquor Dealers Association are pursuing their program and had a number of special constables out yesterday, looking after violations of the law.

These men carefully avoid the mayor when filing affidavits, but they are getting in their work handsomely.

Before Esquire Ryan this morning, these affidavits were filed:

Abraham B. Oppy, of the Racine house, selling cigars.

Fred Eckart, selling meat.

C. C. Gumpper selling ice cream and cigars.

John Hinton, selling cigars.

Peter Moran, selling ice.

Before Esquire France:

Henry B. Ayres, selling cigars.

Jacob Klinger, selling milk.

John Hartzell, selling milk.

The first cases to come up for trial were those of Klinger and Hartzell, milkmen. Esquire France looked into into the law pretty thoroughly and acquitted both men. He holds that milk is a necessity and being perishable, must be delivered daily.

Esquire Ryan is considering the Oppy case and the case of Ayres, the druggist, comes up at 4 o'clock.

It is understood that a half-dozen new cases will be filed to-morrow and the druggists have called a meeting for Thursday evening to protect their own interests.

FLINT, Mich., May 20.—The large stock stables of Hon. William Hamilton, on the La Pere road, two miles southeast of this city, were struck by lightning yesterday afternoon, and in a few seconds half a dozen buildings were in flames. The shock prostrated Mrs. John Nogett, wife of the tenant, and fears are entertained for her life. In the main stable were half a hundred blooded horses, all of which were saved except two colts valued at $1,200 each, and the famous trotting stallion Tecumseh. Some dynamite stored in a tool house exploded with tremendous force destroying $3,000 worth of farming tools, harness, seventy tons of hay and 500 bushels of grain. The farm residence was saved only through herculean labors on the part of the firemen.

A Dishonest Cashier Embezzles That Amount of the Western Union Telegraph Company.

BOSTON, May 20.—Wm. B. Derby, cashier of the Mutual District Messenger company, of this city, is now under arrest at police headquarters, on the charge of embezzling $18,000 or more from the Western Union Telegraph company. The District Messenger company does for the Western Union a great deal of messenger service, for which the bills are rendered monthly. It was discovered some time ago that there was something wrong with the accounts and suspicion was fastened upon Derby.

An expert was placed upon his books and it was discovered that he had made it a practice to raise the amount of this company's bills against the Western Union, and pocket the difference. The bills have been increased fully one-third in amount. Derby is about thirty-five years of age, and married. The experts are satisfied that the amount taken largely exceeds $18,000.

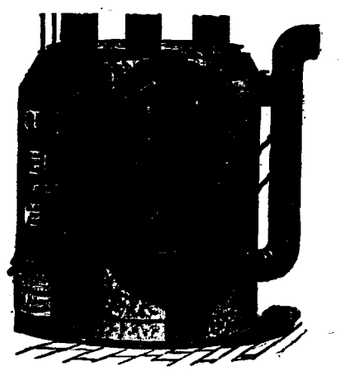
SHE'S A HUMMER!



The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces.

JOHN PRESSLER,
71 East Columbia street.

This furnace consumes but one ton of coal per month in the coldest weather.

MONDAY, MAY 26, 1889.

DR. AGNEW argues that bicycling produces spinal complaint. This is sweet solace to the man who cannot ride.

THE German Savings bank, of New York, has accepted the bonds and will make the general loan recently negotiated by the state.

"GATH," of the Cincinnati *Enquirer*, says that if the election were to come off now, the majority against Harrison would be 10,000 in Indiana.

THE state supreme court has decided that the legislature has the power to appoint the governing officers of all the state benevolent institutions. This is one of the points raised by Governor Hovey.

THE Indiana supreme court adjourned Saturday last. The May term opens Monday, the 27th inst. Judge Elliott, who is now filling the unexpired term of Judge Howk as chief justice, has been elected chief justice for the May term.

THE census officers have begun the work of sending out notices to newspapers asking that public attention be called to the fact that the census year begins June 1, 1889, and ends May 30, 1890. Statistics of every sort are wanted for that period.

THE state treasurer is preparing to advertise for bids for the school fund loan authorized by the fifty-sixth general assembly. There is no question of the constitutionality of this act. The loan is so big that it throws the troublesome one which the German savings bank, of New York, has been dallying with into the shade. The advertisement will call for bids for a loan, all to be taken at once, of $3,705,000. Bids will be opened July 1.

WITH the next issue of the *North American Review* is completed the seventy-third year of its existence. Its appearance will be delayed to contain a notice of the decease of its editor and proprietor, Allen Thorndyke Rice. In 1879, when Mr. Rice made the purchase, the magazine was sinking under its own weight of scientific and philosophical ponderosity. He introduced periodical literature and employed the best literary talent on both continents. It is said he paid $3,000 for it and it was paying him a net profit of $30,000 a year, and that he had refused to sell it for $300,000.

A PROMINENT business man called at THE SENTINEL office to-day to urge the organization of a free public library at the Y. M. C. A. temple, and offered at the same time a handsome donation towards its establishment. The young men of Fort Wayne, he argues, are in need of such a place to profitably and pleasantly pass an hour, an evening or a day. There is no better place in the city for a public library and it would give the association the greatest pleasure to open and establish such a feature in connection with its work. All who favor such a movement should assert their feeling at once.

WHO will be the meat inspector? Will the job pay? Who will do the paying? These are questions now being discussed among the butchers, for the council must, at its next meeting, select an inspector. Under the new law all kinds of fresh meat exposed for sale must be inspected alive in the county where it is to be sold by an officer appointed for that purpose, but the act does not specify who shall pay for the work. It is inferred, however, that the butchers of the meat will pay for its inspection. Farmers slaughtering stock of their own raising are not required to have it inspected. The purpose of the law is to shut out dressed meats from the great establishments in Chicago and St. Louis.

IT WORKS WELL.

The city of Fort Wayne turned a new leaf yesterday and the page will always remain spotless to recall the inauguration of the Christian Sabbath era.

The day was observed in a sober, sensible, generous way; the best of feeling prevailed and every one seemed to give moral support to the new order of things.

The fact is demonstrated, too, beyond question, and for all time to come, that a strict observance of the Lord's day is not only practicable, but entirely possible and the good work accomplished and acquiesced in yesterday can be continued and repeated the year around.

It is a source of congratulation to know that the gentlemen who were wont to follow needless business pursuits on Sunday, contributed their share to the law and order movement, by bowing to the supremacy of the law, vieing with the officers in promoting the work of reform.

And why not? It is divine to do right and in this we have a common cause.

Hundreds of homes can to-day attest the beneficial influence of the christian Sabbath. There is more sunshine and joy at the fireside, a better and more prosperous people, a higher citizenship and greater activity in the affairs of life.

An observance of the Sabbath such as we [illegible] as invaded no rights. It rather places humanity on the same broad plane and bequeaths a freedom that the wisdom of ages has sanctioned and sanctified as the best the world has ever known.

Again thir wholesome and righteous cause no influence can prevail and in the bold stand taken in defense of the exaulted dignity of the law, Mayor Harding can rest assured that he enjoys the respectful and admiring congratulations of the whole people.

TEMPERANCE TALK.

Rev. J. L. Leeper Delivers an Eloquent Sermon on "Intemperance"—Elder Sims at the Temperance Headquarters.

"Intemperance" was the subject chosen by Rev. J. L. Leeper, the pastor of the Second Presbyterian church, for his sermon last evening, and in view of the discussion on the Sunday closing movement, which is the topic of the hour with all classes, it was a timely one. That it was the greatest evil of the age, he said, was admitted by every candid mind. We have, however, become so familiar with the misery and ruin that it has wrought that we seldom stop to think of it seriously unless some startling deed, produced by rum's influences, is brought to our attention through the newspapers.

It is doing its deadly work every day and hour. It blights young lives and ruins homes; it makes widows and orphans and sends sorrow and misery to thousands of hearts. It fills our alms houses and penitentiaries and sends our young and old men to the gallows. It costs more, with its ruinous and polluting effects, than any other thing that man consumes—twice as much, the speaker said, as all the necessaries of life, and in speaking of this branch of his subject, he presented some startling and interesting statistics, proving conclusively the positions taken by him.

How to check its evils is then the question of the times. Shut up the saloons, the eloquent pastor said, was the best remedy. They are the temptations that are constantly drawing under its blighting influences the young men of the land. They are adding fresh recruits to the great army of drunkenness every day and until they are swept out of existence rum's deadly work will go steadily on. If we can not have them shut up every day of the week, let us see to it that they are kept closed on the Lord's day.

The speaker was glad to see the position taken by the mayor on the Sunday question and he hoped that every Christian in the city would sustain him in his grand work of removing an evil that is taking from the pockets of the workingmen of Fort Wayne $2,000 of their hard earnings every day and probably twice as much on Sundays. Let us stand by the mayor in this movement. If we do not it will be a burning shame to the Christians of this city.

Rev. Leeper then spoke of the work that is being done by the temperance societies and other organizations, and closed by urging the regenerating power of religion as a remedy for the curse of intemperance. His address was a masterly one, and words of praise were heard on every hand as the audience left the Y. M. C. A. rooms, where the services were held.

AT THE TEMPERANCE HEADQUARTERS.

Rev. J. H. Sims, the brilliant young pastor of the Christian church, spoke to the young people at the Temperance Headquarters yesterday afternoon. He pictured in an eloquent and interesting way the evils growing out of the traffic in rum and told of its ruinous effects upon those who allowed themselves to become its victims. He said intemperance was a great and growing evil and wrecked more lives than any other cause and he pleaded in an eloquent and interesting way with his young hearers, not to allow themselves to become addicted to either the rum or the tobacco habit. Elder Sims is a forcible and pleasant speaker and his talk was one that pleased the audience present, a number of whom were adult people.

AT THE Y. M. C. A. ROOMS.

Mr. H. C. Schrader conducted the services yesterday afternoon, at the City Y. M. C. A. rooms, and in opening them delivered an interesting talk. He spoke of the uncertainty of life and urged his hearers to accept the promises held out by Christ and be ready for the visiting angel of death when it came. His address was an earnest one and awakened a feeling of interest that was manifest in the after services.

He was followed by others in devotional exercises and short speeches, and among the latter was Mr. Dan Souder, who spoke earnestly of the good that the enforcement of the Sunday law was doing in the city. He said he lived on a thoroughfare to one of the great breweries of the city. Every Sunday for months past vast crowds had passed his house on their way to this resort. The scene yesterday was a great contrast to that of previous Sundays and everything was orderly and quiet, while before the crowds which went there were drunken and riotous. Mr. Souder thought the Sunday law was a grand thing and he hoped the christian people would sustain the mayor in its enforcement.

Rev. VanSlyke, the pastor of the Berry street M. E. church, conducted the services at the Railroad department rooms and delivered an earnest and interesting address.

It is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

A fiddler is generally up to his chin in business.

The unexpected convalescence of the afflicted patient in the celebrated hydrophobia case, which Goldsmith so graphically describes, has never been understood. It is believed that the following revised version amply explains it:

Pond's Extract faithfully he used,
'Twas ever by his side,
So the man recovered of the bite,
The dog it was that died.

The disease of the dog was, of course, a not unnatural consequence of the restoration to his pristine vigor of the gentleman attacked.

Why is a theatre drop curtain so called? Because the gentlemen go out to take a "drop" whenever it goes down.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Two Accidents at the Pittsburg Shops—Other News and Gossip Around the Busy Centers.

The Wabash has placed four new vestibule sleepers on the road.

The carpenters and joiners excurted to Rome City this morning.

Four repaired engines were sent out of the Pittsburg shops to-day.

There are nine locomotive engines in the Pittsburg shops for repairs.

The Wabash railroad is appraised for taxation at the rate of $10,000 per mile

Ed. Nikolai, of the Pittsburg blacksmith shops, was at New Haven yesterday.

Geo. H. Wolle, of the Jenny electric light works, went to Houston, Texas, last night.

Thomas Shearer, machinist at the Olds wheel works, is visiting friends at Lafayette.

The "Little Tycoon" company went to Springfield, Ohio, this morning, on the Pittsburg.

The excursion season to Rome City has commenced. Warsaw will have her boom later on.

Alexander Jobst, whose death occurred this morning, was at one time an employe of the Bass works.

Charley Jobst, moulder at the Bass works, is off duty on account of the death of his father Mr. Alexander Jobst.

James Leary, of Superintendent of Motive Power Casanave's office, is quite ill at his apartments, on East Berry street.

A new locomotive of the improved class "S" pattern, was turned out of the Pittsburg shops Saturday, for the Pan Handle road.

Engine No. 119, the fifth of the new lot of ten class S engines now being built at the Pittsburg shops, was sent out Saturday.

Wm. Connors, an apprentice at the Pittsburg machine shops, had two of his fingers badly injured Saturday afternoon, at the works.

The purchasers of the Wabash, St. Louis & Pacific railway have reorganized the road under the name of the Wabash Eastern Railway Company.

Harry Robinson, the lad who had his arm torn out a few weeks ago by a railroad accident, is getting along very nicely at the hospital. He was able to sit up yesterday.

President Ashley, of the Wabash Western road, is quoted as saying that the Wabash Western and Wabash proper would be consolidated and in good working order by August 1.

The boiler inspectors were at the Bass works yesterday, inspecting the boilers at that establishment, and complemented Engineer Stephen Brown very highly on the condition in which they found the boilers under his care.

On Saturday last the Wabash railway company purchased forty-seven acres of ground near the point where the road strikes the Belt road at Chicago, paying $750 per acre. It is proposed to erect extensive repair shops on this ground.

Henry Miller, one of the oldest machinists at the Pittsburg shops, while engaged in cleaninig his machine at the works Saturday afternoon, got his left hand caught in the machinery and had it badly mangled. Mr. Miller has been in the employ of the company for twenty-seven years and lives on Marion street, in Bloomingdale.

Quite a novel race took place yesterday, at Hesse Castle, so one of the employes at the Bass works tells us, between John Smith, of this city, and a horse belonging to Christ. Kleber, of that place. John had distanced the horse and was speeding away at a rapid gait when he fell. The horse was blind and tumbled over him and so the race was declared a draw.

Engineer Jack Christie, of the Pennsylvania company, ran his train, No. 5, the limited, from the depot in this city to the depot at Chicago, yesterday morning, in two hours and fifty-nine minutes. The distance is 149 miles and the average time made was a mile a minute. This is the fastest time ever made by the limited. When the train left this city it was two hours behind time.

While our reporter was on his rounds of the manufacturing establishments this morning, he took occasion to note the effects of the Sunday closing movement upon the boys in the shops. "It is a good thing," said one foreman, "and I am glad the mayor is enforcing the law in this respect. This is the first Monday morning for years that all of my men have turned up all right. As a usual thing I have had a half-dozen or more men off Monday and it resulted from the Sunday drinking. It will save the men lots of money and they will be happier and better in every respect." This is the feeling of a majority of the men in the shops concerning the Sunday closing movement. They all recognize the fact and admit that it is a good thing.

"I'LL TELL YOUR FATHER."

A common offense of which mothers are guilty is indicated by the heading of this narrative, says a writer in an English journal. A mischievous child has disobeyed some maternal command, or smashed a window, or hacked off the cat's tail, or scratched little sister's pink and white complexion. "You, Jim, just wait and I'll tell your father when he comes home." In this manner threatens the mother, whose gentle heart forbids her punishing the little rebel. It is a dire threat, and laden with dark portents. From one point of view it may be interpreted as a back-handed compliment to the father—a confession, so to say, that his disciplinary resources are superior to hers. But that is a superficial view of the case. In reality that mother's threat presents the father to the child's mental vision as a terror, a thing of dreadful apprehension, a bogie man, by whom he is to be carried off to some dark, damp cave, there to be eaten up with savage relish.

Now, that is not only wrong as a measure of domestic government, but it amounts to an ungenerous refusal to "give the old man a chance." What man with a father's natural feelings in his heart would consent to play the role of monster to his child, for whose good (if he but knew what it was) he would not hesitate to make a personal sacrifice? Therefore, what right or color of right has the mother to force him, against his very soul's protest, to play so revolting a part. His manhood recoils from it; his self-respect forbids it; his natural human affection cries aloud in denunciation of it. It is a crime in all but the intent, a wicked and far-reaching slander, for which their is no redress, and against which there is no defense save the mother's own sense of fair play. And that will be quite enough when it is once reached by intelligent appeal. Come now, honor bright, good mother, haven't you committed this offense once a week ever since your child knew the meaning of words?

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

"Where are you going my pretty maid?"
"I'm going washing, sir," she said.
"What hold you in your hand so tight,
With a face so gay and a step so light?"
"That which all prize their dearest treasure—
Makes washing and scrubbing only a pleasure,
Keeps the clothes so clean and white;
The doors and windows a beautiful sight.
For your own household you'll get it, I hope,
Five cents buys a *bar* of SANTA CLAUS SOAP."

The St. Louis papers come squarely out, stating that all of the present officials of the Wabash will be dropped. A big change in the management of this great corporation will shortly take place, We hope that the change will be more beneficial to the mechanics and laboring men than they have been during the past five years. There is no reason why the Wabash road should not be one of the very best in the country, for it passes through a great and rich territory, but for some cause or another, the road has not been doing the business it should have done for the past five or six years.

A gentleman prominently identified with many thriving industries of this city has a scheme on foot whereby at a comparatively small cost a public park connected with a lovely watercourse can be constructed in connection therewith. Situated within this park exposition buildings are contemplated. The scheme looks plausable and if feasable it would work a new era in one of the most noted and calculated effective improvements for our city. This scheme and others relating to expositions and fairs in the near future are to be discussed at the special meeting of the Business Men's Exchange, over Baldwin's music store to-night. Everybody has a right to attend. Sweeny park has many natural advantages and could be made a beautiful summer resort for our people.

When a woman steps out on the back porch with her arms rolled up in her apron it is a sign to her neighbor that she has something to tell her.

The mustache is said to be losing its popularity as a part of the hirsute adornment of the masculine face; it is always getting "in the soup."

The sounds of the heart have been recorded and reproduced by the phonograph.

MISS FRANKIE RAYMOND, the eccentric young person who stole Mrs. Mills' diamonds, and vowed that her eyes first opened upon this lovely world under the deep blue of a perfect Florentine sky, the turquoise tint of which she will never, never forget, now claims that the smiling, sun-kissed shores of Chicago were her native heath, so to speak. She was a flower-girl, she says, a sweet, sad-eyed flower-girl, whose flute-like voice pleaded, oh, so earnestly, with the passers-by to buy her violets. And as they looked into the purple depths of those innocent eyes the pedestrians would haul out a nickel, just to see the wad of chewing-gum shift within those coral-red lips and to hear that voice say: "Whadge want, geranium or heelytrope?" Miss Raymond says she was known as "Camille, the flower-girl." Anybody remember that name? What a splendid title that would make for a play!

WHILE leveling the ground to build a sea wall at East River, a little village on the shore twenty miles east of New Haven, Conn., Emory Morse, of Wallingford, unearthed the crumbling skeleton of an Indian which he believes is that of the famous sachem whose fate in battle gave name to the pretty shore retreat, Sachem's Head. The remains are those of an Indian at least seven feet in height. More than two hundred years ago white settlers had a fierce battle with the Indians at the place where East River now stands, and the sachem, with all his tribe, was killed.

DR. GRACE WOLCOTT and three other American women physicians while in Vienna recently were honored by an invitation from Prof. Billroth, the eminent surgeon, to attend his private clinic and witness his own private operations. Prof. Billroth stands high in continental medical circles, and the fact that he has heretofore led the opposition to the admission of women to medical schools makes his courtesy to the American ladies all the more noteworthy. The event created quite a sensation in Vienna and was commented upon by all the leading papers.

A Romance of Wabashonia.

The Marriage of Miss Hattie Rosenthal to Mr. Ben. Brunswick.

Last evening at the residence of the bride's parents, Mr. and Mrs. Ephriam Rosenthal, on West Main street, occurred the marriage of their pretty and accomplished daughter, Miss Hattie Rosenthal, to Mr. Ben Brunswick, a prominent young business man of Chicago.

The ceremony was performed, according to the beautiful ritual of the Hebrew church, by Rev. Samuel Strass, the former rabbi of the congregation in this city, and a pleasant reception followed at the residence, where an elegant repast was served.

The young couple have left on an extended western wedding tour and will take up their residence in Chicago, where Mr. Brunswick is engaged in business.

Cancer

is a form of blood poison which is not understood by the medical profession as to its real nature and character, but it is evidently hereditary in its nature. It may accidentally develop itself without any predisposition or evidence of such existing position. The knife or caustic salves have heretofore been the so-called remedies for it, but all honest practitioners will tell you that this treatment fails to cure, and only hastens fatal results. Thousands of cases of epithelioma (skin) cancers, and a great many cases of scirrhus cancers, have been entirely cured by the use of Swift's Specific. It forces the poison out through the cancer itself, and the pores of the skin.

My father had cancer, my husband also had cancer, in fact, died with it. In 1875 a lump came on my nose, which steadily increased in size, and alarmed me. I used various remedies—salves and other applications, and finally tried to burn it out, but the sore returned worse than ever, growing larger and more angry, until I determined to try Swift's Specific. I took the medicine, and it soon made a complete cure. I know that S. S. S. cured me, because I discarded all other remedies. This was several years ago, and I have had no sign of a return of the cancer.

FACTIONAL FIGHTS!

Assistant Postmaster General Clarkson Will Ignore Them in Dealing Out the Fourth-Class Postmasterships.

WASHINGTON, May 20.—In the distribution of fourth-class postoffices, First Assistant Postmaster General Clarkson states that he does not propose to recognize one faction in the various states to the disadvantage of the other. He says he does not believe in encouraging factional fights within the party lines, and so far as he is able, he proposes to deal out the fourth-class postmasterships to republicans without regard to their local differences.

In speaking on this subject to-day he said that so far as he had been informed the administration has set down no fixed policy with regard to the policy in the southern states, and the claims made by certain factions that they are to control all appointments made in their respective states are without authority.

Much consternation prevails among the messengers, watchmen, laborers, and other department employes not under the protection of the civil service law, on account of the persistent demands of the place hunters.

The names of the persons appointed as the board of visitors to the military academy were announced to-day. Among them are: Hon. S. S. Yoder, Lima, O., and Hon. G. W. Shute, Marion, Ind., and General Lew Wallace, Crawfordsville, Ind.

The following appointments were made by the president to-day:

To be Receivers of Public Moneys—Thos. D. Baumgarner, of Arkansas, at Dardanville, Ark.; Henry C. Pickles, of Delaware, at Folsom, N. M.; Frank Lonset, of New Mexico, at Roswell, N. M.

To be Registers of Land Offices—Wm. P. Alexander, of Colorado, at Del Norte, Col.; John H. Mills, of New Mexico, at Roswell, N. M.

To be Indian Agents—James Blythe, of North Carolina, at the eastern Cherokee agency, N. C.; John Fosher, of Wyoming Territory, at the Shoshone agency, W. T.

Mrs. Eaton, the doctor's wife, and a near relative of Miss Davenport acted as the witnesses required by law. Miss Davenport arrived here from Philadelphia yesterday where she closed a successful dramatic season last week. When the nuptial knot was tied the couple were driven to the St. Cloud hotel where they are stopping.

The Stewart Will Case.

POLICE COURT.

Sunday is Clear of Arrests, but Saturday Contributes Its Share.

A Sabbath without an arrest is indeed a rarity, but yesterday was so recorded in the annals of the city, this morning.

Saturday sent in its usual quota, however, and six arrests were recorded.

Mayor Harding, in keeping with his refusal to let police officers take bail, appeared at police court yesterday to give relief to the prisoners, if any desired trial or release in the proper way.

Accordingly Oscar Logan, a plain drunk was arraigned. He said guilty, had no money and was committed to jail to work out $10.50.

Sam Smith who was arrested with a woman over Geiskdorfer's saloon, put in a similar plea. His bill was $14.50.

The woman in the case had a little babe in her arms and Officer Humbreckt did not arrest her.

Thus concluded the Sabbath morning court and three cases went over until to-day.

Harry Gardner went to the old Goliuke saloon and after some drinks rudely accosted Mrs. Merz, whose husband is now under indictment for promiscuous shooting.

The woman called for police protection, and Gardner was looked up. He was given a hearing to-day, and the mayor assessed a fine and costs of $10.50 for simple assault, the first accusation having been modified.

John Toomey and Frank Travis were arraigned for drunkenness and the usual amount, $10.50, was chalked against them.

SCANDAL AND A SUIT.

Sam Druley Invades the Sanctity of a Home and Pays the Penalty.

Dave Burnie, is a freight brakeman on the Pittsburg, Fort Wayne and Chicago road, and lives with his wife and two children in a cottage home on Oliver street.

Friday night he went to Chicago on his run, and on schedule time he would be back here last night. There was a special stock train ordered east from Chicago, Saturday, and Burnie, with others of the crew, were "doubled back" as the expression goes, and he arrived in the city yesterday morning.

Proceeding to his home about 4:30, he entered by the aid of a night key and loitered some moments about the house, looking in at his children and then he stepped to his wife's apartments.

As soon as he approached the door a man clutched him about the waist and a fierce struggle followed.

Burnie, who always carries a gun, succeeded in getting the weapon out of his pocket, but so tightly was he held in the vice-like grip of the intruder, Sam Druley, that he could not raise his hand to kill him.

Pulling his right hand up as high as he could he sent a bullet into Druley's left hip joint. The fellow yelled murder and fled through the door.

Burnie leveled his pistol at the fleeing form to shoot a second time, but his wife threw his arm up and saved a life.

It did not take long to locate Sam Druley as the victim of the shooting, for he had to have medical aid. The bullet passed about his limb and opened a dangerous gap, from which blood rolled in a stream.

Burnie walked down to the police station and was locked up. This morning he waived examination and was held in the sum of $6,000 to await a trial.

It is, of course, surmised that Durley was Mrs. Burnie's lover and in his society she sought to pass the hour's of her husband's absence, for something of the kind separated her from her husband a year or so ago.

Burnie pleads self-defense. He says he did not know but that Durley was a thief, and at any rate, he is not very sorry for his work.

Druley drives a romantic coal wagon when not disabled, and Dr. H. S. Myers, his attendant, says he will get well.

A California Earthquake.

NEW YORK, May 20.—The third day's session of the Presbyterian General Assembly was opened this morning with prayer by Moderator Roberts and after a short session, Dr. Crosby moved that the assembly adjourn until the afternoon, for the purpose of visiting the Union Theological Seminary.

PURITAN PRACTICES.

A Sunday of Peace and Quiet in Fort Wayne—Milkmen, Ice Dealers, Butchers and Druggists Arrested for Sabbath Violations.

Such a Sunday as yesterday will not find a parallel in the history of Fort Wayne.

There are 174 saloons in the jurisdiction of this city and every one of them were closed from 11 o'clock Saturday night until 6 o'clock this morning.

Captain Diehl handed to each of his men on the night force a list of saloons in their territory, with instructions to see them locked at 11 o'clock and they did so, placing the chief on record in thorough sympathy with the movement.

Marshal Franke had things different and is criticised in some quarters. He insists that his orders were to close saloons, drug stores, cigar shops, confectioneries, meat markets, bakeries and every forbidden business yesterday.

It was a question whether he was following the dictates of the mayor or the Liquor Dealers' association and to settle the point THE SENTINEL representative sought the mayor.

"What were your orders to the marshal?" was put to his honor.

"Well, sir, I will tell you. Fearing I would be misconstrued I asked Hon. W. H. Shambaugh, a representative in the legislature, to be present during my interview with Marshal Franke. I prefer you would go to Mr. Shambaugh. He will give you my words exactly and from an independent standpoint."

"Are you pleased with the Sabbath observance?"

"Very much so," said the mayor. "It was perfect and I feel it will be pleasing to all good people."

A TALK WITH MR. SHAMBAUGH.

The young attorney and legislator was encountered in the court house.

"You were present when the mayor instructed the marshal Saturday. Will you repeat his words?" ventured the newspaper man.

"Mr. Harding instructed the marshal," said Mr. Shambaugh, "to notify all saloon keepers to close their houses Saturday night, at 11 o'clock, and remain closed until Monday morning. These orders were plain and imperative. He then said to the marshal in substance. 'I wish you would also say to druggists, cigar dealers, and others, accustomed to do business on Sunday, that in view of the threatened prosecution of the liquor dealers, who are trying to make the Sunday law obnoxious and odious, that, for self protection, they had better close up.' The mayor only meant to do them a favor, for he knew the plans of the saloon men. This is the position of the mayor."

THE SUNDAY AS SEEN.

Sunday was not quiet, but it was decent. There were the customary number of people on the streets, everybody who could went out driving, others patronized the street cars, others fished all day, others went to church, Sunday school and prayer services and hundreds visited the parks, the cemeteries and went out to view the haunts of nature.

There was not a person who did not feel better after a day so well spent and such were the comments on every hand.

In the face of the fact that a great many people laid in a supply of wet goods Saturday night, there was not a sign of drunkenness on the streets, there were no crowds loafing out late at night and no disorder.

The signs of druggists, "No Soda or Cigars," "Closed by Order of the Marshall," and such signals created considerable amusement.

Saloon men had dummy policemen in their front doors, holding the mayor's proclamation and one cop sported the legend: "You'll never miss your drink until the saloons go dry."

The breweries, beer gardens and picnic places were all closed and the saloon men drove out with their families and sweet-hearts to see the city in all its magnificence.

SALOON MEN SHOWING A HAND

The Liquor Dealers Association are pursuing their program and had a number of special constables out yesterday, looking after violations of the law.

These men carefully avoid the mayor when filing affidavits, but they are getting in their work handsomely.

Before Esquire Ryan this morning, these affidavits were filed:

Abraham R. Oppy, of the Racine house, selling cigars.

Fred Eckart, selling meat.

C. C. Gumpper selling ice cream and cigars.

John Hinton, selling cigars.

Peter Moran, selling ice.

Before Esquire France:

Henry B. Ayres, selling cigars.

Jacob Klingar, selling milk.

John Hartzell, selling milk.

The first cases to come up for trial were those of Klinger and Hartzell, milkmen. Esquire France looked into into the law pretty thoroughly and acquitted both men. He holds that milk is a necessity and being perishable, must be delivered daily.

Esquire Ryan is considering the Oppy case and the case of Ayres, the druggist, comes up at 4 o'clock.

It is understood that a half-dozen new cases will be filed to-morrow and the druggists have called a meeting for Thursday evening to protect their own interests.

William Hamilton, on the La Pore road, two miles southeast of this city, were struck by lightning yesterday afternoon, and in a few seconds half a dozen buildings were in flames. The shock prostrated Mrs. John Nugett, wife of the tenant, and fears are entertained for her life. In the main stable were half a hundred blooded horses, all of which were saved except two colts valued at $1,200 each, and the famous trotting stallion Tecumseh. Some dynamite stored in a tool house exploded with tremendous force destroying $3,000 worth of farming tools, harness, seventy tons of hay and 500 bushels of grain. The farm residence was saved only through herculean labors on the part of the firemen.

Derby, cashier of the Mutual District Messenger company, of this city, is now under arrest at police headquarters, on the charge of embezzling $18,000 or more from the Western Union Telegraph company. The District Messenger company does for the Western Union a great deal of messenger service, for which the bills are rendered monthly. It was discovered some time ago that there was something wrong with the accounts and suspicion was fastened upon Derby.

An expert was placed upon his books and it was discovered that he had made it a practice to raise the amount of this company's bills against the Western Union, and pocket the difference. The bills have been increased fully one-third in amount. Derby is about thirty-five years of age, and married. The experts are satisfied that the amount taken largely exceeds $18,000.

The above cut represents the HOWARD FURNACE, which excells by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, whereby the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in ordinary seasons less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is now down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces. PETERSEIM & BRO.,

Fort Wayne Sentinel.

E. A. E. HACKETT, Editor and Proprietor.

MONDAY, MAY 20, 1889.

DR. AGNEW argues that bicycling produces spinal complaint. This is sweet solace to the man who cannot ride.

THE German Savings bank, of New York, has accepted the bonds and will make the general loan recently negotiated by the state.

"GATH," of the Cincinnati *Enquirer*, says that if the election were to come off now, the majority against Harrison would be 10,000 in Indiana.

THE state supreme court has decided that the legislature has the power to appoint the governing officers of all the state benevolent institutions. This is one of the points raised by Governor Hovey.

THE Indiana supreme court adjourned Saturday last. The May term opens Monday, the 27th inst. Judge Elliott, who is now filling the unexpired term of Judge Howk as chief justice, has been elected chief justice for the May term.

THE census officers have begun the work of sending out notices to newspapers asking that public attention be called to the fact that the census year begins June 1, 1889, and ends May 30, 1890. Statistics of every sort are wanted for that period.

THE state treasurer is preparing to advertise for bids for the school fund loan authorized by the fifty-sixth general assembly. There is no question of the constitutionality of this act. The loan is so big that it throws the troublesome one which the German savings bank, of New York, has been dallying with into the shade. The advertisement will call for bids for a loan, all to be taken at once, of $3,705,000. Bids will be opened July 1.

WITH the next issue of the *North American Review* is completed the seventy-third year of its existence. Its appearance will be delayed to contain a notice of the decease of its editor and proprietor, Allen Thorndyke Rice. In 1879, when Mr. Rice made the purchase, the magazine was sinking under its own weight of scientific and philosophical ponderosity. He introduced periodical literature and employed the best literary talent on both continents. It is said he paid $3,000 for it and it was paying him a net profit of $30,000 a year, and that he had refused to sell it for $300,000.

A PROMINENT business man called at THE SENTINEL office to-day to urge the organization of a free public library at the Y. M. C. A. temple, and offered at the same time a handsome donation towards its establishment. The young men of Fort Wayne, he argues, are in need of such a place to profitably and pleasantly pass an hour, an evening or a day. There is no better place in the city for a public library and it would give the association the greatest pleasure to open and establish such a feature in connection with its work. All who favor such a movement should assert their feeling at once.

WHO will be the meat inspector? Will the job pay? Who will do the paying? These are questions now being discussed among the butchers, for the council must, at its next meeting, select an inspector. Under the new law all kinds of fresh meat exposed for sale must be inspected alive in the county where it is to be sold by an officer appointed for that purpose, but the act does not specify who shall pay for the work. It is inferred, however, that the butchers of the meat will pay for its inspection. Farmers slaughtering stock of their own raising are not required to have it inspected. The purpose of the law is to shut out dressed meats from the great establishments in Chicago and St. Louis.

IT WORKED WELL.

The city of Fort Wayne turned a new leaf yesterday and the page will always remain spotless to recall the inauguration of the Christian Sabbath era.

The day was observed in a sober, sensible, generous way; the best of feeling prevailed and every one seemed to give moral support to the new order of things.

The fact is demonstrated, too, beyond question, and for all time to come, that a strict observance of the Lord's day is not only practicable, but entirely possible and the good work accomplished and acquiesced in yesterday can be continued and repeated the year around.

It is a source of congratulation to know that the gentlemen who were wont to follow needless business pursuits on Sunday, contributed their share to the law and order movement, by bowing to the supremacy of the law, vieing with the officers in promoting the work of reform.

And why not? It is divine to do right and in this we have a common cause.

Hundreds of homes can to-day attest the beneficial influence of the christian Sabbath. There is more sunshine and joy at the fireside, a better and more prosperous people, a higher citizenship and greater activity in the affairs of life.

An observance of the Sabbath curtails no liberty or invades no rights. It rather places humanity on the same broad plane and bequeaths a freedom that the wisdom of ages has sanctioned and sanctified as the best the world has ever known.

Aguist their wholesome and righteous cause no influence can prevail and in the bold stand taken in defense of the exalted dignity of the law, Mayor Harding can rest assured that he enjoys the respectful and admiring congratulations of the whole people.

TEMPERANCE TALK.

Rev. J. L. Leeper Delivers an Eloquent Sermon on "Intemperance"—Elder Sims at the Temperance Headquarters.

"Intemperance" was the subject chosen by Rev. J. L. Leeper, the pastor of the Second Presbyterian church, for his sermon last evening, and in view of the discussion on the Sunday closing movement, which is the topic of the hour with all classes, it was a timely one. That it was the greatest evil of the age, he said, was admitted by every candid mind. We have, however, become so familiar with the misery and ruin that it has wrought that we seldom stop to think of it seriously unless some startling deed, produced by rum's influences, is brought to our attention through the newspapers.

It is doing its deadly work every day and hour. It blights young lives and ruins homes; it makes widows and orphans and sends sorrow and misery to thousands of hearts. It fills our alms houses and penitentiaries and sends our young and old men to the gallows. It costs more, with its ruinous and polluting effects, than any other thing that man consumes—twice as much, the speaker said, as all the necessaries of life, and in speaking of this branch of his subject, he presented some startling and interesting statistics, proving conclusively the positions taken by him.

How to check its evils is then the question of the times. Shut up the saloons, the eloquent pastor said, was the best remedy. They are the temptations that are constantly drawing under its blighting influences the young men of the land. They are adding fresh recruits to the great army of drunkenness every day and until they are swept out of existence rum's deadly work will go steadily on. If we can not have them shut up every day of the week, let us see to it that they are kept closed on the Lord's day.

The speaker was glad to see the position taken by the mayor on the Sunday question and he hoped that every Christian in the city would sustain him in his grand work of removing an evil that is taking from the pockets of the workingmen of Fort Wayne $2,000 of their hard earnings every day and probably twice as much on Sundays. Let us stand by the mayor in this movement. If we do not it will be a burning shame to the Christians of this city.

Rev. Leeper then spoke of the work that is being done by the temperance societies and other organizations, and closed by urging the regenerating power of religion as a remedy for the curse of intemperance. His address was a masterly one, and words of praise were heard on every hand as the audience left the Y. M. C. A. rooms, where the services were held.

AT THE TEMPERANCE HEADQUARTERS.

Rev. J. H. Sims, the brilliant young pastor of the Christian church, spoke to the young people at the Temperance Headquarters yesterday afternoon. He pictured in an eloquent and interesting way the evils growing out of the traffic in rum and told of its ruinous effects upon those who allowed themselves to become its victims. He said intemperance was a great and growing evil and wrecked more lives than any other cause and he pleaded in an eloquent and interesting way with his young hearers, not to allow themselves to become addicted to either the rum or the tobacco habit. Elder Sims is a forcible and pleasant speaker and his talk was one that pleased the audience present, a number of whom were adult people.

AT THE Y. M. C. A. ROOMS.

Mr. H. C. Schrader conducted the services yesterday afternoon, at the City Y. M. C. A. rooms, and in opening them delivered an interesting talk. He spoke of the uncertainty of life and urged his hearers to accept the promises held out by Christ and be ready for the visiting angel of death when it came. His address was an earnest one and awakened a feeling of interest that was manifest in the after services.

He was followed by others in devotional exercises and short speeches, and among the latter was Mr. Dan Souder, who spoke earnestly of the good that the enforcement of the Sunday law was doing in the city. He said he lived on a thoroughfare to one of the great breweries of the city. Every Sunday for months past vast crowds had passed his house on their way to this resort. The scene yesterday was a great contrast to that of previous Sundays and everything was orderly and quiet, while before the crowds which went there were drunken and riotous. Mr. Souder thought the Sunday law was a grand thing and he hoped the christian people would sustain the mayor in its enforcement.

Rev. VanSlyke, the pastor of the Berry street M. E. church, conducted the services at the Bullroad department rooms and delivered an earnest and interesting address.

It Is a Curious Fact

That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

A fiddler is generally up to his chin in business.

The unexpected convalescence of the afflicted patient in the celebrated hydropathic cures, which Goldsmith so graphically describes, has never been understood. It is believed that the following revised version amply explains it:

Pond's Extract faithfully he used,
'Twas over by his side,
So the man recovered of the bite,
The dog it was that died.

The disease of the dog was, of course, a not unnatural consequence of the restoration to his pristine vigor of the gentleman attacked.

Why is a theatre drop curtain so called? Because the gentlemen go out to take a "drop" whenever it goes down.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them!

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

MONDAY'S BUDGET.

Two Accidents at the Pittsburg Shops—Other News and Gossip Around the Rear Centers.

The Wabash has placed four new vestibule sleepers on the road.

The carpenters and joiners executed to Rome City this morning.

Four repaired engines were sent out of the Pittsburg shops to-day.

There are nine locomotive engines in the Pittsburg shops for repairs.

The Wabash railroad is appraised for taxation at the rate of $10,000 per mile.

Ed. Nikolai, of the Pittsburg blacksmith shops, was at New Haven yesterday.

Geo. H. Wolle, of the Jenny electric light works, went to Houston, Texas, last night.

Thomas Shearer, machinist at the Olds wheel works, is visiting friends at Lafayette.

The "Little Tycoon" company went to Springfield, Ohio, this morning, on the Pittsburg.

The excursion season to Rome City has commenced. Warsaw will have her boom later on.

Alexander Jobst, whose death occurred this morning, was at one time an employe of the Bass works.

Charley Jobst, moulder at the Bass works, is off duty on account of the death of his father Mr. Alexander Jobst.

James Leary, of Superintendent of Motive Power Casanave's office, is quite ill at his apartments, on East Berry street.

A new locomotive of the improved class "S" pattern, was turned out of the Pittsburg shops Saturday, for the Pan Handle road.

Engine No. 119, the fifth of the new lot of ten class S engines now being built at the Pittsburg shops, was sent out Saturday.

Wm. Connors, an apprentice at the Pittsburg machine shops, had two of his fingers badly injured Saturday afternoon, at the works.

The purchasers of the Wabash, St. Louis & Pacific railway have reorganized the road under the name of the Wabash Eastern Railway Company.

Harry Robinson, the lad who had his arm torn out a few weeks ago by a railroad accident, is getting along very nicely at the hospital. He was able to sit up yesterday.

President Ashley, of the Wabash Western road, is quoted as saying that the Wabash Western and Wabash proper would be consolidated and in good working order by August 1.

The boiler inspectors were at the Bass works yesterday, inspecting the boilers at that establishment, and complement-ed Engineer Stephen Brown very highly on the condition in which they found the boilers under his care.

On Saturday last the Wabash railway company purchased forty-seven acres of ground near the point where the road strikes the Belt road at Chicago, paying $750 per acre. It is proposed to erect extensive repair shops on this ground.

Henry Miller, one of the oldest machinists at the Pittsburg shops, while engaged in cleaning his machine at the works Saturday afternoon, got his left hand caught in the machinery and had it badly mangled. Mr. Miller has been in the employ of the company for twenty-seven years and lives on Marion street, in Bloomingdale.

Quite a novel race took place yesterday, at Nesse Castle, so one of the employes at the Bass works tells us, between John Smith, of this city, and a horse belonging to Christ Klebor, of that place. John had distanced the horse and was speeding away at a rapid gait when he fell. The horse was blind and tumbled over him and so the race was declared a draw.

Engineer Jack Christie, of the Pennsylvania company, ran his train, No. 5, the limited, from the depot in this city to the depot at Chicago, yesterday morning, in two hours and fifty-nine minutes. The distance is 149 miles and the average time made was a mile a minute. This is the fastest time ever made by the limited. When the train left this city it was two hours behind time.

While our reporter was on his rounds of the manufacturing establishments this morning, he took occasion to note the effects of the Sunday closing movement upon the boys in the shops. "It is a good thing," said one foreman, "and I am glad the mayor is enforcing the law in this respect. This is the first Monday morning for years that all of my men have turned up all right. As a usual thing I have had a half-dozen or more men off Monday and it resulted from the Sunday drinking. It will save the men lots of money and they will be happier and better in every respect." This is the feeling of a majority of the men in the shops concerning the Sunday closing movement. They all recognize the fact and admit that it is a good thing.

"I'LL TELL YOUR FATHER."

A common offense of which mothers are guilty is indicated by the heading of this narrative, says a writer in an English journal. A mischievous child has disobeyed some maternal command, or smashed a window, or hacked off the cat's tail, or scratched little sister's pink and white complexion. "You, Jim, just wait and I'll tell your father when he comes home." In this manner threatens the mother, whose gentle heart forbids her punishing the little rebel. It is a dire threat, and laden with dark portents. From one point of view it may be interpreted as a back-handed compliment to the father—a confession, so to say, that his disciplinary resources are superior to hers. But that is a superficial view of the case. In reality that mother's threat presents the father to the child's mental vision as a terror, a thing of dreadful apprehension, a bogie man, by whom he is to be carried off to some dark, damp cave, there to be eaten up with savage relish.

Now, that is not only wrong as a measure of domestic government, but it amounts to an ungenerous refusal to "give the old man a chance." What man with a father's natural feelings in his heart would consent to play the role of monster to his child, for whose good (if he but knew what it was) he would not hesitate to make a personal sacrifice? Therefore, what right or color of right has the mother to force him, against his very soul's protest, to play so revolting a part. His manhood revolts from it; his self-respect forbids it; his natural human affection cries aloud in denunciation of it. It is a crime in all but the intent, a wicked and far-reaching slander, for which their is no redress, and against which there is no defense save the mother's own sense of fair play. And that will be quite enough when it is once reached by intelligent appeal. Come now, honor bright, good mother, haven't you committed this offense once a week ever since your child knew the meaning of words?

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, and twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for pleasure or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasures of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

For rates and dates apply at the office of P. S. O'Rourke, Superintendent.

"Where are you going my pretty maid?"

Keeps the clothes so clean and white;
The doors and windows a beautiful sight.

The St. Louis papers come squarely out, stating that all of the present officials of the Wabash will be dropped. A big change in the management of this great corporation will shortly take place. We hope that the change will be more beneficial to the mechanics and laboring men than they have been during the past five years. There is no reason why the Wabash road should not be one of the very best in the country, for it passes through a great and rich territory, but for some cause or another, the road has not been doing the business it should have done for the past five or six years.

A gentleman prominently identified with many thriving industries of this city has a scheme on foot whereby at a comparatively small cost a public park connected with a lovely watercourse can be constructed in connection therewith. Situated within this park exposition buildings are contemplated. The scheme looks plausible and if feasible it would work a new era in one of the most noted and calculated effective improvements for our city. This scheme and others relating to expositions and fairs in the near future are to be discussed at the special meeting of the Business Men's Exchange, over Baldwin's music store to-night. When a woman steps out on the back porch with her arms rolled up in her apron it is a sign to her neighbor that she has something to tell her.

The manikin is said to be losing its popularity as a part of the hirsute adornment of the masculine face; it is always getting "in the soup."

The sounds of the heart have been recorded and reproduced by the phonograph.

Miss Frankie Raymond, the eccentric young person who stole Mrs. Mills' diamonds, and vowed that her eyes first opened upon this lovely world under the deep blue of a perfect Florentine sky, the turquoise tint of which she will never, never forget, now claims that the smiling, sun-kissed shores of Chicago were her native heath, so to speak. She was a flower-girl, she says, a sweet, sad-eyed flower-girl, whose flute-like voice pleaded, oh, so earnestly, with the passers-by to buy her violets. And as they looked into the purple depths of those innocent eyes the pedestrians would haul out a nickel. Just to see the wad of chewing-gum shift within those coral-red lips and to hear that voice say: "Whadge want, geranium or heolytrope?" Miss Raymond says she was known as "Camille, the flower-girl." Anybody remember that name? What a splendid title that would make for a play!

While leveling the ground to build a sea wall at East River, a little village on the shore twenty miles east of New Haven, Conn., Emory Morse, of Wallingford, unearthed the crumbling skeleton of an Indian which he believes is that of the famous sachem whose fate in battle gave name to the pretty shore retreat, Sachem's Head. The remains are those of an Indian at least seven feet in height. More than two hundred years ago white settlers had a fierce battle with the Indians at the place where East River now stands, and the sachem, with all his tribe, was killed.

Dr. Grace Wolcott and three other American women physicians while in Vienna recently were honored by an invitation from Prof. Billroth, the eminent surgeon, to attend his private clinic and witness his own private operations. Prof. Billroth stands high in continental medical circles, and the fact that he has heretofore led the opposition to the admission of women to medical schools makes his courtesy to the American ladies all the more noteworthy. The event created quite a sensation in Vienna and was commented upon by all the leading papers.

A HEBREW WEDDING.

The Marriage of Miss Hattie Rosenthal to Mr. Ben. Brunswick.

Last evening at the residence of the bride's parents, Mr. and Mrs. Ephriam Rosenthal, on West Main street, occurred the marriage of their pretty and accomplished daughter, Miss Hattie Rosenthal, to Mr. Ben Brunswick, a prominent young business man of Chicago.

The ceremony was performed, according to the beautiful ritual of the Hebrew church, by Rev. Samuel Straus, the former rabbi of the congregation in this city, and a pleasant reception followed at the residence, where an elegant repast was served.

The young couple have left on an extended western wedding tour and will take up their residence in Chicago, where Mr. Brunswick is engaged in business.

Cancer

is a form of blood poison which is not understood by the medical profession as to its real nature and character, but it is evidently hereditary in its nature. It may accidentally develop itself without any predisposition or evidence of such existing position. The knife or caustic salves have heretofore been the so-called remedies for it, but all honest practitioners will tell you that this treatment fails to cure, and only hastens fatal results. Thousands of cases of epithelioma (skin) cancers, and a great many cases of scirrhus cancers, have been entirely cured by the use of Swift's Specific. It forces the poison out through the cancer itself, and the pores of the skin.

My father had cancer, my husband also had cancer, in fact, died with it. In 1875 a lump came on my nose, which steadily increased in size, and alarmed me. I used various remedies—salves and other applications, and finally tried to burn it out, but the sore returned worse than ever, growing larger and more angry, until I determined to try Swift's Specific. I took the medicine, and it soon made a complete cure. I know that S. S. S. cured me, because I discarded all other remedies. This was several years ago, and I have had no sign of a return of the cancer.

The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, whereby the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and will allow hot air pipes to be taken from the top instead of the side of the casing as in all other furnaces. JOHN PRESSLER, 71 East Columbia street.

This furnace consumes but one ton of coal per month in the coldest weather.

MONDAY, MAY 20. 1889.

DECORATION Day is a legal holiday.

NATURAL gas will give Fort Wayne a great boom.

PRESIDENT HARRISON promises to do something handsome yet for the German-Americans.

LLOYD S. BRICE, intimate friend and associate of Minister Rice, will succeed the deceased as editor of the North American *Review*.

IT is said that Congressman Cheadle has practically secured the appointment of Col. C. G. Thompson as postmaster at Lafayette.

THE German Savings bank has paid $700,000 to the state on the legislative loan recently negotiated, and the Indiana treasury is flush.

PRESIDENT HARRISON having provided offices for all his relatives, the New York *World* suggests that Baby McKee be appointed inspector of milk.

THE states which will hold elections this year are Iowa, Kentucky, Maryland, Massachusetts, New York, Pennsylvania, Ohio and Virginia.

THE Auburn *Courier* has been enlarged and improved. The *Courier* is one of the staunch and able democratic papers of the Twelfth district.

CONGRESSMAN STEELE and Gen. Lew Wallace, of Indiana, were appointed, with others, on the board of visitors to the military academy at West Point.

JOHN SHERMAN is throwing the whole might of his influence in favor of Col. I. N. Alexander, of Van Wert, for district attorney for the northern district of Ohio.

ADVICES from Samoa indicate that the civil war there is at an end. Admiral Kimberly, of the United States navy, is named as arbitrator between the warring factions.

UNDER the next apportionment for members of congress, Massachusetts is likely to lose one member, New York four, Pennsylvania three, Ohio one, while Illinois and Indiana will lately hold their own.

THE Cincinnati law and order league has caused the arrest of a number of saloon men for violating the Sabbath laws. The cases have not been heard, but they attract wide attention, as conviction imposes imprisonment in the work house.

MR. AND MRS. ANDREW CARNEGIE will sail for Europe shortly. They will stop in Paris and then start for the North Capes. At home the employes of Mr. Carnegie must accept pauper wages or starve. This is a rare illustration of the beauties of the high protective tariff tax laws.

THE stories of the cruel and brutal treatment of inmates of the insane hospital at Chicago arouse the fiercest feeling against such inhuman practices. The men in charge of the institution, while in their sober senses, beat, torture, and murder their less fortunate fellow beings. It is shocking, and the severest punishment should be inflicted on these human vultures.

THE Lafayette *Ledger* insists that the division headquarters of the Wabash road at Andrews are distasteful to the employes, and advises its merchant's exchange to take hold of the matter with a view to the removal of the division terminal to that city. THE SENTINEL believes if a change is made, that Fort Wayne is more favorably situated than any city on the line. The topic might be considered, for an effort, at least, costs nothing.

A LAW recently passed by the Minnesota legislature provides that whoever becomes intoxicated by voluntarily drinking intoxicating liquors shall be deemed guilty of the crime of drunkenness, and upon conviction thereof shall be punished as follows: For the first offense a fine of not less than $10 nor more than $40, or by imprisonment for not less that ten nor more than forty days; for the second offense by imprisonment for not less than thirty nor more than sixty days, or by a fine of not less than $20 nor more than $50; for the third and all subsequent offenses by imprisonment of not less than sixty nor more than ninety days.

THE Rev. Frost Craft, a former Fort Wayne minister, preached on "Wicked Debts," at Trinity church, Lafayette, last Sunday night, and created consternation. He said that a milliner at Lafayette had said to him that the reason she didn't belong to Trinity church was, that so many ladies of the congregation owed her for their bonnets and would not pay her. He said furthermore that a dressmaker of that city had informed him that a number of ladies belonging to the church were wearing dresses not paid for; that the groverymen complained of church people owing them, and that nearly every business in Lafayette was full of "wicked debts," contracted for by people who were leading church members.

THE HENDRICKS CLUB.

A Fine Meeting Held Last Night—A Tribute to Mr. Cleveland.

The Hendricks Club held a fine meeting last night. The articles of incorporation and the constitution, by-laws and house rules, previously presented, were finally approved, giving the club a legal status.

Mr. Geo. B. McKinnie reported having engaged the City Band to lead the Hendricks Legion in the Decoration Day parade.

A committee of three were named to arrange the billiard tables for use and make other improvements in the club parlors.

Hon. J. D. Sarnighausen, who takes great pride in the organization, and is one of its staunch members, arose and said:

"Mr. President, I ask the privilege of presenting to this club the portrait of a gentleman whom I hope to see the next president of the United States."

When he revealed the face of Hon. Grover Cleveland there was generous and prolonged applause and the senator was as handsomely thanked for his generosity as his sentiment was approved.

The club meets again in two weeks and is on the high road to fame.

Two weeks ago O. E. Hognemburg, of Dunkirk, N. Y., went to Portland and organized the Ohio and Indiana Gas company, but refused to divulge what he had in view, although the impression was given out that a large factory was to be established. On Saturday he began constructing a two-inch pipe line across the state line nine miles distant, while A. J. Avery, an associate, owning a lot within Portland limits, refused right of way. Condemnation proceedings were instituted before Judge Bobo, who held that the law recently passed by the General Assembly forbidding piping natural gas outside the State limits was unconstitutional. Aiding in the condemnation proceedings was J. in B. Cohn, representing O. R. Cummings, the "Gas Kink," of Chicago. "Cal" Brice is also understood to be in the syndicate, which has leased thirty-five thousand acres of gas land, and represent several millions in capital. Fort Wayne is represented by Hon. R. C. Bell and R. T. McDonald.

The following well-known musicians have charge of the Indiana Music Teachers' association, to be held at Lafayette, June 25, 26 and 27. Officers—W. F. Heath, Fort Wayne, president; J. F. Kinsey, Lafayette, secretary; Flora M. Hunter, Indianapolis, treasurer. Program committee—J. A. Zellar, Lafayette; Prof. Max Leckner, Indianapolis, and Nannie C. Love, Muncie. Executive committee—G. M. Cole, Richmond; W. T. Giffin, Logansport, and Ella M. Hitt, Vincennes.

A Great Battle.

Is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. A good reliable medicine like Hood's Sarsaparilla is the weapon with which to defend one's self, and restore peace and bodily health for many years. Try this peculiar medicine.

A Business-Like Offer.

For many years the manufacturers of Dr. Sage's Catarrh Remedy have offered in good faith, $500 for a case of Nasal Catarrh which they cannot cure. The Remedy is sold by druggists at only 50 cents. The wonderful remedy has fairly attained a world wide reputation. If you have dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; if the eyes are weak, watery and inflamed; if there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectorations of offensive matter, together with scabs from ulcers; the voice being changed and has a nasal twang; the breath offensive; smell and taste impaired; sensation of dizziness, with mental depression, a hacking cough and general debility, you are suffering from nasal catarrh. The more complicated your disease, the greater the number and diversities of symptoms. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood, or more unsuccessfully treated by physicians.

Brown, of Lafayette, president; George B. Saylor, of Fort Wayne, secretary and treasurer. August Brentano, Evansville, Perry Starr, Richmond, and W. F. Winchester, Indianapolis, directors. Frank Caswell, Fort Wayne; J. P. Elliott, Evansville; P. A. Lowald, Indianapolis, and E. C. Maisby, Richmond, were given credentials as delegates to the Atlantic City national convention, June 15. H. V. Root, of Fort Wayne, was indorsed as Indiana's candidate for the presidency of the national association. George B. Saylor reported a membership in Indiana of 383; cash balance, $94. LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only know that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

TUESDAY'S TIPS

As Our Railroad Reporter Catches Them During His Regular Morning Stroll.

The Wabash pay car will be in the city Thursday.

Bruno Brabandt, of the Bass moulding rooms, is on the sick list.

The Bass works sent a new slide valve engine to Chicago this morning.

The Western Union is painting its telegraph poles along Calhoun street.

George Smith, of the Bass moulding rooms, is on the sick list, and off duty.

Claude Ellenwood has resumed his position at the Pittsburg blacksmith shops.

Peter Roth, John Wefel and Anthony Phail have again taken positions at the Bass moulding rooms.

Most of the offices at the manufacturing establishments this morning, had bright fires burning in their stoves.

The colt recently purchased by Ed. Challenger, clerk at the Pittsburg boiler shops, is achieving a wonderful reputation.

William Eberhardt, of the Bass works, is tussling with two or three of Job's comforters, and is in consequence off duty.

Alex. Rounder, Henry Tussing and Nicholas Pelgen, of the Pittsburg blacksmith shops, are taking a few days' vacation.

Assistant Foreman A. L. Woodworth, of the Pittsburg blacksmith shops, is off duty to-day, entertaining friends who are visiting him.

Robert Kerbach, machinist at the Bass works, who had his foot mashed some time ago, resumed his position again this morning.

S. F. Bowser & Co., are enlarging their factory and in addition to the goods they are now making, will manufacture wooden and paper pails.

The Nickel Plate will change time a week from next Sunday. The passenger train from the west will arrive fifteen minutes earlier than before.

The carpenters and joiners report having had a pleasant day at Rome City yesterday, notwithstanding the cool weather. They took sixty people to the resort.

Two nines from the Nickel Plate shops played a game of base ball the other day. One of the teams was captained by Homer Smith, and the other by Fred O'Connor. Smith's team won the game by a score of 20 to 13.

James Trythall, Owen Barry, John Rost, Michael Carey, A. Rost and Henry Morrison, who have been off duty for a few days on account of repairs to the steam hammer in the Pittsburg blacksmith shops, resumed work this morning.

President Ashley, of the Wabash Western, who is one of the gentlemen who purchased the Wabash road at its recent sale at Chicago, with General Manager Hayes and other officials of the road, passed through the city yesterday on their way east. They traveled in two special cars.

The east bound shipments of grain, flour and provisions by the Chicago lines in the Central Traffic association last week aggregated 16,076 tons, against 15,816 for the preceeding week, an increase of 260 tons, and against 17,584 for the corresponding week last year; a decrease of 1,508 tons. The Vanderbilt lines carried 50.3 per cent. of the total; the Pennsylvania lines, 20.4; the Chicago and Grand Trunk, 20.4, and the Baltimore and Ohio, 8.9.

A novel stop has been taken by the master mechanic of the Wabash road, which is well calculated to produce good results. An imperative order has been issued that in future no young man will be given a situation in their shops to learn any of the skilled trades who has not passed a satisfactory examination in the eight grade of the common schools, or of a grade in other schools equal to that grade, and a certificate to that effect, signed by the principal or superintendent, will be required.

The railroad mathematician of THE SENTINEL is a daisy without dispute. In last evening's issue he states that Jack Christie pulled the limited from this city to Chicago, a distance of 148 miles, in two hours and fifty-nine minutes, being an average of a mile a minute. Just how 148 miles in 179 minutes will make that average, ordinary mathematicians cannot comprehend.—*Morning Journal.*

If the *Journal* man, before writing the above, had paused long enough to think that the necessary stops of the train had to be figured in making our calculation of a mile a minute, he could probably have comprehended how we arrived at our conclusion. The railroad mathematician of the *Journal* is evidently not a daisy.

Hood's Sarsaparilla is peculiar to itself and superior to all other preparations in strength, economy, and medicinal merit.

THOROUGH EDUCATION.

Education ought to be three-fold—intellectual, moral, and physical; training of the mind, the heart, and the hands; building up together, and building each with regard to its relations to the whole man, the three departments of man's triune nature, the three members of the human trinity. Any system of education is defective which neglects either of the three. A cultivated mind, associated with a dwarf moral nature, and lodged in a frame whose powers have never been developed, is rarely useful to mankind, and often a curse to its possessor. When the moral sense is pushed to abnormal development without the accompanying and dominating influence of the intellect, the result is more likely to be an inmate of a lunatic asylum than a useful citizen. Physical training alone predoces that thing in which the human family makes contact with the brute creation.

Society claims the right, based on the first law of nature, to insist that all children shall, to a certain extent be educated. Society puts its hand into the strong-box of the childless millionaire, and takes his money to educate the ten or a dozen children of his pauper neighbor. It does this in order that crime and poverty may be diminished. It builds school-houses and employs teachers in order that it may not have to build so many prisons and hire so many keepers. On the theory that ignorance begets vice and conduces to poverty, society makes war on illiteracy, through systems of public schools. There is no question of more general and absorbing interest than the education of the young, and there is no feature of American social life more dear to the people, more carefully watched, or more cheerfully supported than our free schools.—*Washington Post.*

The latest statistics from England show a marked increase in the number of women employed in the different trades. There are any number of weavers, shirt-makers, and seamstresses, not a few carpenters and shoe-makers, and a good many who work in branches which had better be left entirely to the stronger sex. Woman's opportunities are constantly increasing and widening, as they should, but it is doubtful if any woman can, with satisfaction, contemplate her sisters working as blacksmith, coal-heavers, and scavengers.

The new French income-tax bill proposes a tax of 1 per cent. to be levied on all professional, industrial and commercial incomes, those derived from all other sources to be taxed 1½ per cent. The old taxes on incomes also remain in force, so that the new tax is in reality an additional impost.

YOUNG AGAIN.

Pain and sickness bring on old age with wonderful rapidity. Weary steps and faded cheeks often come when enjoyment of life should be at its height. Loose's Extract of Red Clover Blossoms will make one feel young again, and on account of its intrinsic value it is having an immense sale. For sale by Dreier Bros.

Dangerous Use of Strong Purgatives.

Most pills, purgatives and Bitter Waters, which act quickly upon the bowels, irritate and often destroy the mucous coats of the stomach and bowels, indeed their cathartic action is directly caused by the irritation of the bowels, which they produce. Their action should be soothing and stimulating instead of irritating. A continued use of such remedies produces chronic inflammation of the stomach and bowels. This often ends in dangerous disease. The use of the genuine imported Carlsbad Sprudel Salt is highly recommended as an aperient, laxative and diuretic, because its action is due solely to its solvent and stimulating properties. It soothes and allays inflammation, and is therefore much preferable to all strong purgatives and Bitter Waters.

Beware of imitations. Dr. Tobold's lecture on Carlsbad Sprudel Salt and pamphlets mailed free. Eisner & Mendelson Co., Sole agents, 6 Barclay St., New York.

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the other buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.
